Disposal of Sharps/Syringes: OCRRA offers directions and guidance for residents to properly dispose of used sharps and syringes. **NEVER** place containers of sharps (needles, syringes, and lancets) alone in plastic trash bags or in blue bins.

1. Sharps can be placed in clean, biohazard-labeled sharps containers or in clean, heavy plastic bleach or laundry detergent bottles with a screw-on cap. Containers must be leak-proof, labeled as **"Sharps"** and the top must be taped shut. They can then go in the trash.
2. Several health centers and hospitals will accept sharps from residents. This encourages the safe disposal of sharps for people with medical conditions that require at-home, self-injections.
3. Onondaga County offers the "Sharps, Needles and Drug Disposal" program, with drug (and needle) collection points at various locations.
